

This is a first step towards making global products in the local market at an affordable price to the common man. Clover Health Care Pharma is a long cherished dream of a man who worked in the pharma industry across the country for the last 25 years. He is trying to create an economic explosion by fusing his vision and mission in favour of the common man.

### **Our Mission**

1. To make available global products in the local markets at an affordable cost to the ailing millions.
2. To provide quality medicines in various therapeutic segments to the common man.
3. To set up a pharma manufacturing unit at the earliest and to be a pharma major in the years to come.
4. To provide employment to needy youths with a special focus on ladies who want to make a decent living.

### **Our Vision**

Clover Health Care Pharma stands for the patient's health.

### **Our Quality Policy**

To manufacture and market pharmaceutical formulations, by meeting requisite standards to comply with customer needs, enhance customer satisfaction, and continuously improve the effectiveness of total quality management.

### **Our work with communities**

Being a premier pharmaceutical company in the country, Clover's core value is to be a good corporate citizen. It is committed to the communities in which it works. Our stated mission statement is "To lend a helping hand to the less fortunate in our society through the support of women, children and the aged in the areas of health and education." Implementing this philosophy in spirit, we make a positive contribution to the communities in which we operate, and invest in health and education programs and partnerships that aim to bring sustainable improvements to under-served people.
